By Je'Mi

What we expose our body to daily?

Everyday,

our body is exposed to
pollution, UV light, radiation,
tobacco smoke, smog,
acids from processed foods &
carbonated beverages, etc

What will **HAPPEN** to our body?

- the accumulation of non-disposed
ACIDIC WASTES in our body
- build up of solidified acid wastes such as
Bad Cholesterol, Fatty Acid, Uric Acid,
Kidney Stones, etc

How will these HARM our body?

THE **MINOR** 'Harms'

- Bad digestion, bloating, constipation
- Dull skin, hair & brittle nails
- Constant fatigue, drop in Energy Level
- Lowered body immunity system

How will these HARM our body?

THE **MAJOR** 'Harms'

- CANCER
- DIABETES MELLITUS TYPE I & II
- OSTEOPOROSIS
- ARTHRITIS
- BLOCKED NYMPH NODES

What do you call this 'HARM' to our body?

OXIDATION

How will OXIDATION harm our body?

It will drive our body towards

Oxidation-Stress!

This simply means that our body automatically produces harmful 'Free Radical Cells' which will **attack** our body's **healthy** cells.

This results in the **deterioration of our health** over time!
(due to increased acidic levels within the body)

How will OXIDATION harm our body?

**This is a simple demonstration to show
The 'bad' effects of oxidation on a nail.**

Place a clean nail inside 2 beakers of water.

Beaker A contains 'balance' water

Beaker B contains normal tap water

Leave these 2 containers aside for 2 weeks
and you will see

a rusty nail in Beaker B whilst in

Beaker A, the nail is still clean!

**'balance' combats oxidation by getting rid of
harmful free radical cells, keeping our body fit & healthy!**

Nails remain clear
due to anti-oxidation

Nails are rusty due
to oxidation

What must we do to PROTECT our body?

We need

ANTI-OXIDANTS

to counteract these

harmful free radical cells &

STOP them from

attacking our healthy cells!

INTRODUCING 'BALANCE'

(logo design & rationale)

A healthy '**b**'ody basically needs

higher '**A**'lkaline level

and '**I**'ower

'**A**'cid level (Reverse the acidity level)

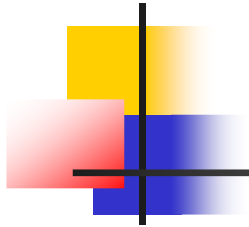

'**N**'a

'**C**'ombination of both produces healthy

Free '**E**'lectrons

(anti-oxidants that are extremely good for our health)

What is 'balance'?

Is

**Concentrated Mineral Solution
consisting of
Water-Soluble Silica &
several other important minerals.**

What is 'balance'?

It is a

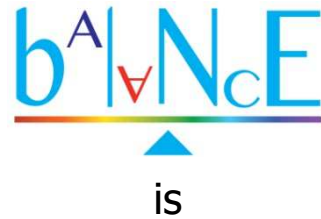

Alkaline liquid mineral supplement that is brimming with active hydrogen and has a

PH Level of 12 - 14+/-,

Most importantly, it is an

EXTREMELY EFFECTIVE ANTI-OXIDANT!

What is Balance made from?

is

made from QUARTZ CRYSTALS,
the best and purest source of Silica
(from Korea and manufactured using our
patented formula in Japan) + other important minerals.

It is also water soluble, making it one of the
highest bio available silica sources available

How EFFECTIVE is Balance?

- it dramatically **REDUCES** oxidative-stress and combats the harmful free radical cells in the body
- it **provides** good Active Hydrogen in the body giving rise to the production of good free electron cells in the body

Our Patent.

b^A|vN_cE

is

registered with the Register of The Japan Patent Office.

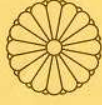

Patent Application Number : 2008-111395

Patent Number : 4564076

With completion on 6 August 2010

as a preventive aid or for the improvement of the medical condition,

Type II Diabetes.

特許証
(CERTIFICATE OF PATENT)

特許第 4564076 号
(PATENT NUMBER)

発明の名称 (TITLE OF THE INVENTION)

多孔性球状メタケイ酸コロイド溶液

特許権者 (PATENTEE)

鹿児島県薩摩川内市副田 5967-1

株式会社ミラクルウォーター

発明者 (INVENTOR)

小原 徹
濱田 教男
西園 啓文

出願番号 (APPLICATION NUMBER)

特願 2008-111395

出願年月日 (FILING DATE)

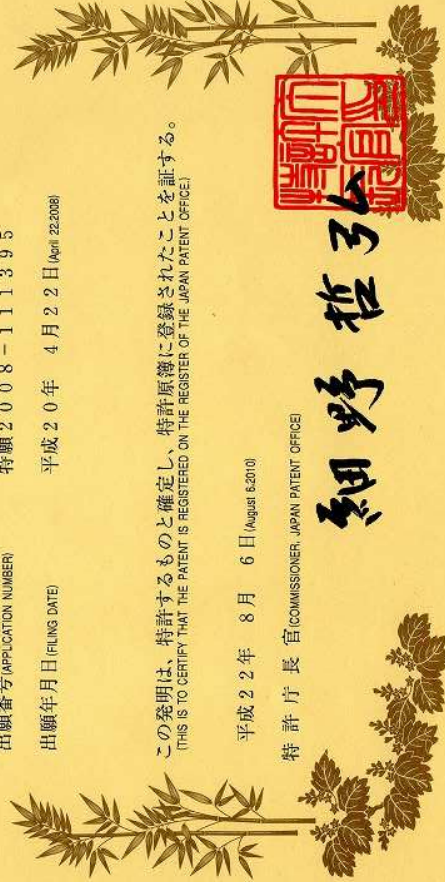

平成 20 年 4 月 22 日 (April 22, 2008)

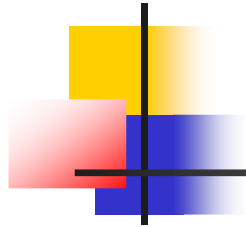

この発明は、特許するものと確定し、特許原簿に登録されたことを証する。
(THIS IS TO CERTIFY THAT THE PATENT IS REGISTERED ON THE REGISTER OF THE JAPAN PATENT OFFICE.)

Certificate of Analysis
Kagoshima Pharmaceutical Association

Product Brand Name : Soken-Zanmai
Product Chemical Name : Poros-Spherical Metasilicate Colloidal Solution
Additional Remarks : Obtained International Patent No. 4564076
Kagoshima Pharmaceutical &
Food Ref Number : AA11-13-01588
Date Completed : 30th January 2012

CERTIFICATE OF ANALYSIS

The below analysis is based solely on product sample provided by client to Kagoshima Pharmaceutical Association on the 16th January 2012.

Test Parameter	Results	Detection Limit	Standard Specification	Unit	Test Method
Calcium Ion	18	-----	-----	mg/L	ICP-AES
Gallium Ion	64	-----	-----	mg/L	ICP-AES
Magnesium Ion	2120	-----	-----	mg/L	ICP-AES
Sodium Ion	5000	-----	-----	mg/L	ICP-AES
Water-Soluble Metasilicate	4200	-----	-----	mg/L	ICP-AES
Manganese	> 0.1	-----	-----	mg/L	ICP-AES
Germanium	> 0.1	-----	-----	mg/L	ICP-AES
Zinc	2.1	-----	-----	mg/L	ICP-AES
Copper	> 0.1	-----	-----	mg/L	ICP-AES
Iron	3.4	-----	-----	mg/L	ICP-AES

What is our TECHNOLOGY?

'balance'
is formulated using the
advanced nano-colloidal silica technology.

This nano-colloidal silica
ENCAPSULATES
the **ACTIVE HYDROGEN** & other important minerals
within its soluble 'waterproofing' membrane.

This entrapment
is the **FORCE & REASON**
why our concentrated mineral solution
DO NOT DISINTEGRATE NOR DEGENERATE!
under extreme heat or cold temperatures!

(Hence, there is no need to use aluminum seal or special container to hold our solution)

More importantly, it **retains its quality** up to 24 months!
(as proven by a scientific experiment by the University of Kagoshima in Japan)

Why do we add **SILICA** into our concentrate solution?

- Silica is NATURE'S BUILDING BLOCK.
It is essential to the proper inner workings of the human body.
It is involved in the metabolism within all the organs of the body
and helps provide a Stable Immune System
- Silica is the 'master mineral' that initiates healing/new tissue construction
(especially connective tissue and bone)
- It also aids natural detoxification, especially of the lymphatic & blood systems

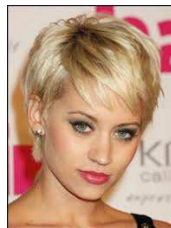

What is Silica?

The skin of babies, toddlers and teenagers' are the nicest because the SILICA level in the body is at its HIGHEST.

SILICA is ONE of the most IMPORTANT MINERAL in our body!
COLLAGEN in our body is built from a form of mineral known as Anhydrous silica

With age, the SILICA diminishes and the skin loses its elasticity and wrinkles set in.

How to Use Balance?

is to be

DILUTED into any drinking water at 1% of the total ml of water

(eg 500ml, you will drip in 5ml of 'Balance')

and the water will become

Anti-oxidant alkaline water with

lots of active hydrogen + free electrons

and it remains in this condition for the next 24 months!

Advantages of using 'balance'?

can be
dripped into all types of drinking water
and
beverages (fruit juices, vitamin water), etc

In fact, dripping 'balance' into beverages will lengthen
the shelf life (because of its anti-oxidant effects)
of these products and helps to add
Anti-oxidants in the beverage itself!

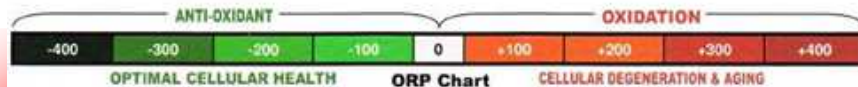

(something which alkaline machines, alkaline sticks or tablets cannot do!)

What is 'balance' ORP Reading?

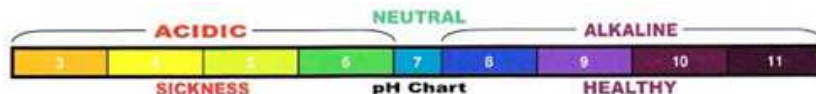

An Oxidation-Reduction Potential (ORP) Test can be conducted to check on the oxidation & reduction potential of any water or beverage. See attached table

Beverages pH & ORP Test Results (Page 1)

A test of the following beverages was conducted July 2008 in California using a calibrated PinPoint Combo pH / ORP Meter.

Brand	Label	Packaging	pH	pH Chart	ORP	ORP Chart
Aquafina			5.35	Yellow	+381	Red
Arrowhead Spring Water			7.42	Blue	+275	Red
Evian			7.64	Blue	+295	Red
Fiji			7.6	Blue	+357	Red
Smart Water			5.9	Yellow	+305	Red
Real Alkalized Water			7.9	Blue	-25	Green
Evamor			9.18	Purple	+174	Red
Penta			5.27	Yellow	+390	Red
Essentia			9.26	Purple	+179	Red
Alive Wellness Water			3.24	Yellow	+415	Red
Vitamin Water			3.34	Yellow	+438	Red
Dasani Plus			3.04	Yellow	+290	Red
Vital Lifestyle Water			3.72	Yellow	+426	Red
Crystal Geyser Sparkling Water			5.72	Yellow	+324	Red
Perrier			5.53	Yellow	+392	Red
Kangen Water™			9.5	Purple	-300	Black

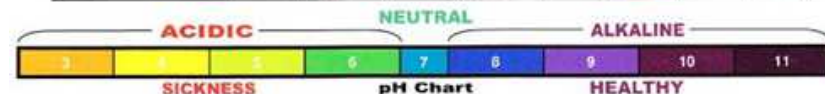

Beverages pH & ORP Test Results (Page 2)

A test of the following beverages was conducted July 2008 in California using a calibrated PinPoint Combo pH / ORP Meter.

Brand	Label	Packaging	pH	pH Chart	ORP	ORP Chart
Arrowhead Sparkling Water			4.89	Yellow	+268	Red
Snapple Red Tea			3.67	Yellow	+360	Red
Propel Fitness Water			3.6	Yellow	+280	Red
Gatorade G2			3.5	Yellow	+325	Red
Sprite			3.5	Yellow	+550	Red
Pepsi			3.2	Yellow	+450	Red
Coke			2.8	Yellow	+410	Red
Red Bull			3.2	Yellow	+462	Red
Starbucks Coffee			5.5	Yellow	+175	Red
Odwalla Orange Juice			4.2	Yellow	+246	Red
MonaVie			6.18	Green	+240	Red
Shiraz Red Wine			4.05	Yellow	+232	Red
Heineken Beer			4.76	Yellow	+315	Red
Patron Tequila			4.55	Yellow	+315	Red
Smirnoff Vodka			6.2	Green	+220	Red
Kangen Water™			9.5	Purple	-300	Black

How does 'balance' aids in improved health for Diabetics?

Diabetes Mellitus Type I (Insulin-dependent)

This Type I Diabetes is caused by insulin deficiency due to oxidative damage of pancreatic B Cells.

Anti oxidant alkaline + active hydrogen water
is proven to 'suppress' the oxidative harmful cells and
remarkably accelerate the secretion of insulin!

Diabetes Mellitus Type II (Non-insulin dependent)

This Type II Diabetes is caused by oxidative damage of both myotube & adipocyte cells due to stress, hyperphagia and lack of exercise!

Anti oxidant alkaline + active hydrogen water
is proven to 'suppress' the activity of tyrosine protein phosphatase & promote the translocation of sugar transport carrier to the cell membrane to promote sugar uptake.
It will also alleviate sugar tolerance damage.

How does 'balance' EASE the negative side effects of Radiation Treatment?

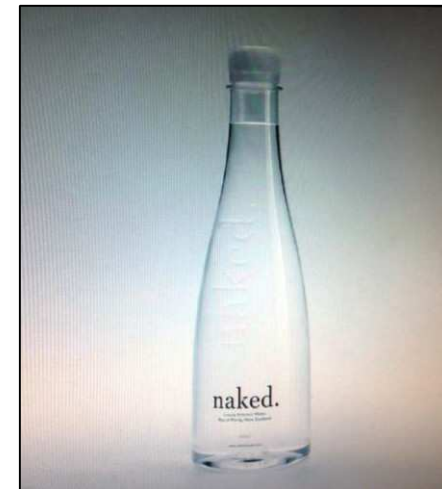

- By reducing & mitigating the negative side effects of Cisplatin – a widely used anti-cancer drug in the treatment of a wide range of tumors
- Reduces biological reaction to radiation-induced oxidative stress without compromising anti-tumor effects

What's in the market now?

Currently, there is a
New Bottled Pure Alkaline Mineral Water
in Singapore –
- Naked water from New Zealand.

It is available for sale in Singapore's Cold Storage
and Seven Eleven Stores
At S\$2.20 per bottle
500ml

***However, it does not contain our proprietary nano-colloidal silica technology formula that comes with other important minerals to give you the maximum anti-oxidant effects.**

Naked

Who we are looking for?

There are many alkaline machines, alkaline tablets, alkaline sticks in the market but there are NONE (Alkaline + Active Hydrogen) in a **Bottled** Mineral Water.

We are looking for **Bottled** Mineral Water **Manufacturers**

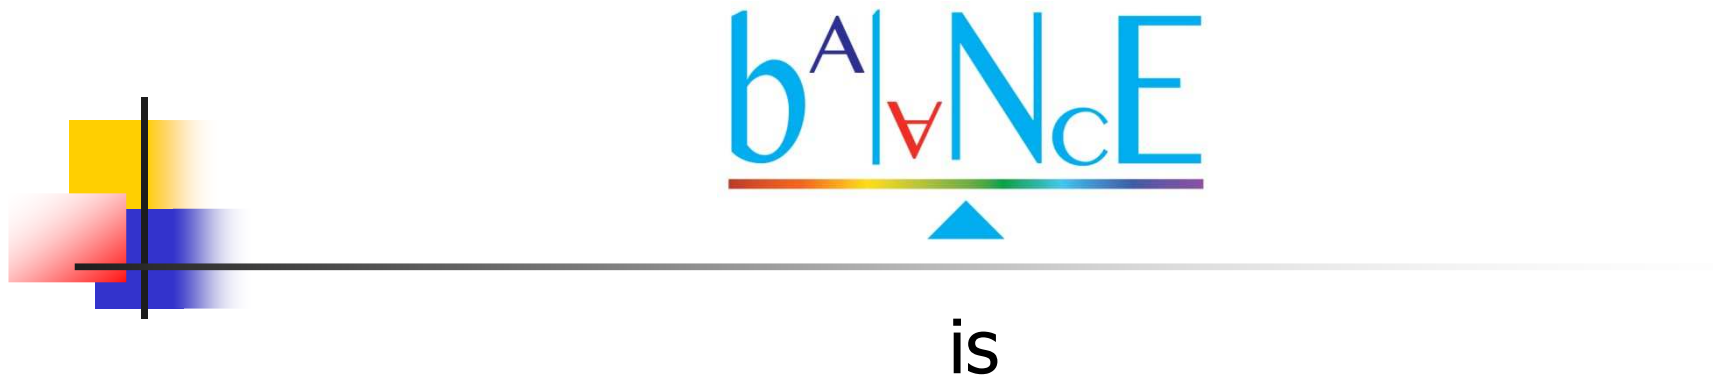

who are keen to be

the **FIRST** to launch our

Anti Oxidant Alkaline + Active Hydrogen

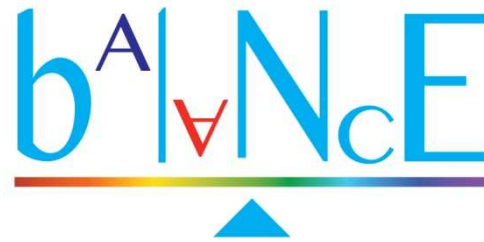

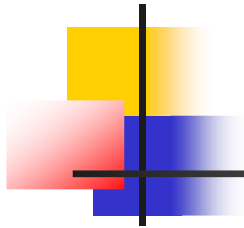

Bottled Mineral Water !

Using our concentrated formula, drip 1% of total ml of water into their current manufacturing line of bottled mineral water and sealed it up to become the FIRST **Anti Oxidant Alkaline + Active Hydrogen** BOTTLED MINERAL WATER Manufacturer!

Water On The Go : Everywhere, Anywhere, Anytime!

Compared to alkaline machines, alkaline sticks and alkaline tablets,
Bottled Anti Oxidant Alkaline + Active Hydrogen Mineral Water
can be easily carried around
and ready for consumption anytime!

We are looking for DIRECT MANUFACTURER!

If you are keen to be one, please do not hesitate
to contact

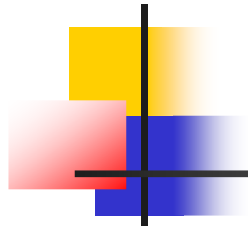

Ms Jessie Chan +65 97307665

(jessie@scintilla.com.sg)

3 Lorong Bakar Batu Brightway Building #06-04 Singapore 348741

Tel : +65 68411711 / Fax : +65 68410806

**We guarantee that you will be well rewarded by using this
unique product formulated using our proprietary
nano-colloidal silica technology and
how your company will contribute to a healthier world!**
